In re Shenzhen Huanyee Intellectual Property Co. et al.

COMBINED SHOW CAUSE ORDER AND NOTICE THAT THE USPTO PROPOSES TO RECONSIDER ITS REGISTRATION DECISIONS

Dear Yusha Zhang, [REDACTED], and Shenzhen Huanyee Intellectual Property Co.:

The United States Patent and Trademark Office ("USPTO") has evidence that Shenzhen Huanyee Intellectual Property Company, and the employees, agents, affiliates, subsidiaries, parent companies, holding companies, or officers thereof (collectively, "Respondents") filed over 19,000 submissions on behalf of others without the requisite qualifications to represent others before the USPTO in violation of the Rules of Practice in Trademark Cases before the USPTO. Specifically, Respondents engaged in the unauthorized practice of law and provided false, fictitious or fraudulent information in thousands of trademark submissions to the USPTO, including owner email addresses and signatures, with the intent to circumvent the USPTO's rules and deceive the USPTO. See Exhibit A (list of affected registrations and applications).¹

This Show Cause Order follows a previous proceeding, *In re Yusha Zhang*, 2021 Commr. Pat. LEXIS 2 at *14-16 (Dir. USPTO 2021). Because the conduct described in this Show Cause Order closely resembles and, at times, overlaps with the prior proceeding, the findings in the 2021 Show Cause Order and subsequent Order for Sanctions are incorporated by reference. *Id.*

The USPTO is the federal agency responsible for the registration of trademarks. 35 U.S.C. § 2(a)(1). The USPTO has established regulations governing the conduct of proceedings in trademark matters. See 35 U.S.C. §2(b)(2)(A); 15 U.S.C. § 1123. All

¹ Respondents' conduct described below was connected to over 19,000 submissions across at least 15,932 trademark application and registration records. Exhibit A to this order includes the 3,361 trademark application and registration records remaining in non-terminated statuses, which are addressed by this order.

applicants for registration must “comply with such rules or regulations as may be prescribed by the Director.” 15 U.S.C. §§ 1051(a)(4) and (b)(4).

Protecting the integrity of trademark registration proceedings and the U.S. trademark register is of the utmost concern to the USPTO because the register is a reflection of trademarks actually used in commerce and its accuracy serves the critical purpose of avoiding needless costs and burdens to applicants, who rely upon its contents when choosing a mark. Providing false information in a trademark submission to obtain or maintain a registration undermines the integrity the register, and those who provide false, fictitious, or fraudulent information are subject to sanctions. See *Zhang*, 2021 Commr. Pat. LEXIS 2 at *10, *14-16; *In re Stelcore Mgmt. Servs., LLC*, 2025 2025 Commr. Pat. LEXIS 3, at *22-27 (Dir. USPTO 2025).

The Director has authority to sanction relevant parties for trademark submissions presented to the USPTO in violation of USPTO rules and has delegated to the Commissioner for Trademarks the authority to impose such sanctions and to otherwise exercise the Director’s authority in trademark matters. 35 U.S.C. § 3(a)-(b); 37 C.F.R. § 11.18(c); see also *Zhang*, 2021 Commr. Pat. LEXIS 2, at *10, *23-24 (sanctions). The authority to issue administrative sanctions orders has been further delegated to the Deputy Commissioner for Trademark Examination Policy.

Based on the available evidence and the following considerations, the USPTO has made a preliminary determination that sanctions are warranted for matters for which proceedings are currently pending before the agency to address the violations of USPTO rules concerning signatures, certification, and representation of others, and violations of the Terms of Use for USPTO Websites. This order requires Respondents to show cause as to why the USPTO should not immediately take certain actions and impose sanctions pursuant to 37 C.F.R. § 11.18(c).

For files that have already proceeded to registration, the USPTO also has reason to believe that the improper activity that is the subject of this order and notice tainted the integrity of the USPTO’s examination and decision-making processes at their core and resulted in wrongful registration decisions.² To fulfill its mandate to register marks and maintain registrations that comply with U.S. trademark law, the USPTO relies on the truth and accuracy of factual assertions and averments in trademark submissions, many of which are supported by signed declarations or verifications. The available evidence indicates that the USPTO’s registration decisions were premised on false representations and assumptions. Therefore, the USPTO proposes to exercise its inherent authority to

² The term “registration decisions” includes both the initial registration decision made during the application examination process and the maintenance and renewal of registrations. The Federal Circuit has interpreted “registration” in the Lanham Act to include maintenance and renewal of registrations, in addition to the initial registration determination. See *Great Concepts, LLC v. Chutter, Inc.*, 84 F.4th 1014, 1019 (Fed. Cir. 2023); *Torres v. Cantine Torresella S.r.l.*, 808 F.2d 46, 48 (Fed. Cir. 1986).

reconsider its registration decisions and reopen the relevant proceedings including but not limited to serial numbers previously identified in the 2021 Order for Sanctions.³

Should you wish to respond to this Combined Show Cause Order and Notice, a response is required **by Thursday, February 26, 2026** to be considered.⁴ The USPTO will consider your response in determining the appropriate sanctions. If you object to the USPTO reconsidering its registration decisions as described below, or imposing the sanctions proposed in the Show Cause Order, you must respond to this notice. To be considered, responses must be submitted in writing using the procedures for Respondents and Owners described below.

I. Background

At the time of the conduct described herein, Respondents and their agents operated a China-based filing firm described as specializing in registering trademarks, including in the United States, despite being unauthorized to do so because they are not U.S.-licensed attorneys. *In re Zhang*, 2021 Commr. Pat. LEXIS 2 at *5-*6. Respondents' misconduct was described in multiple USPTO Office of Enrollment and Discipline ("OED") proceedings and the 2021 Show Cause Order and Order for Sanctions *Id.*; see also *In the Matter of Yi Wan*, 2022 USPTO OED LEXIS 158 (2022) ("Wan OED Order"); *In the Matter of Jie Luo*, 2024 USPTO OED LEXIS 29 (2024) ("Luo OED Order"); *In the Matter of Shan Zhu*, 2025 USPTO OED LEXIS 19, (2025) ("Zhu OED Order"). Respondents collectively filed more than 19,000 trademark submissions using the names, credentials, and signatures of U.S.-licensed attorneys, Yi Wan, Jie Luo, and Shan Zhu. See Exhibit A.

II. USPTO Rules and Requirements

All submissions to the USPTO in trademark matters are governed by U.S. trademark laws and the regulations governing practice in trademark matters before the USPTO, including rules concerning signatures, certification, and representation of others (collectively, "USPTO Rules"). See *generally*, 15 U.S.C. 1051 et seq.; 37 C.F.R. Parts 2, 11.

An application for registration of a trademark filed with the USPTO must be made by the owner of the mark or a person who has a bona fide intention to use the mark in commerce. See 15 U.S.C. § 1051. The application must be supported by a verified statement, signed by the owner or a person properly authorized to sign on behalf of the owner. 15 U.S.C. §§ 1051(a)(3), (b)(3); see also 37 C.F.R. §§ 2.33, 2.193(e). USPTO Rules require that all

³The 2021 Order for Sanctions states that "[t]he sanctions ordered herein are immediate in effect and are without prejudice to the USPTO taking any subsequent appropriate actions to protect its systems and users from Respondents' continued improper activity, including issuing additional orders or referring Respondents' conduct to relevant law enforcement agencies." *Zhang*, 2021 Commr. Pat. LEXIS 2, at *31.

⁴ In order to be considered received on a particular day, the paper must be received by 11:59 p.m. Eastern Time. See TMEP § 303.01.

signed documents submitted to the USPTO in a trademark matter must be personally signed or entered by the named signatory. See 37 C.F.R. § 2.193; TMEP § 611.01(b). A person may not delegate the authority to sign trademark-related submissions, and no one may sign the name of another, electronically or otherwise. See *Zhang*, 2021 Commr. Pat. LEXIS 2, at *13; *In re Dermahose Inc.*, Ser. No. 76585901, 2007 TTAB LEXIS 25, at *9-10 (2007); *In re Cowan*, Reg. No. 1225389, 1990 Commr. Pat. LEXIS 24, at *5-6 (Comm'r Pats. 1990); see also Trademark Manual of Examining Procedure ("TMEP") §§611.01(b)-(c), 804.04 (May 2025 ed.).

A party who presents a trademark submission to the USPTO is certifying that all statements made therein of the party's own knowledge are true and all statements made therein on information and belief are believed to be true. See 37 C.F.R. §§ 2.193(f); 11.18(b)(1). The party is also certifying that, "[t]o the best of the party's knowledge, information and belief, formed after an inquiry reasonable under the circumstances, . . . the paper is not being presented for any improper purpose" and "[t]he allegations and other factual contentions have evidentiary support." 37 C.F.R. § 11.18(b)(2). Thus, knowingly or negligently submitting a document that includes false signatory information, false applicant information, or false claims of use of (or intent to use) the mark in commerce for goods and services that the applicant is not actually offering (or lacks a bona fide intent to offer), violates 37 C.F.R. §§ 2.193(f) and 11.18(b)(1), and doing so without evidentiary support or with intent to circumvent the USPTO's Rules violates 37 C.F.R. § 11.18(b)(2). Violations of 37 C.F.R. § 11.18(b) may jeopardize the validity of the application or registration and may result in the imposition of sanctions under § 11.18(c), including termination of proceedings. 37 C.F.R. § 11.18(c)(5).

Signed declarations or verifications made in support of trademark submissions—such as applications, declarations of use, or registration maintenance documents—are relied upon by the USPTO when examining trademark applications, registering marks, and maintaining registrations. The information in these submissions, such as a party's claim of ownership of the mark, the goods and services in connection with which the mark is or will be used, claimed dates of use, claims of use or bona fide intention to the use the mark in commerce, are all statutory prerequisites for obtaining registration. 15 U.S.C. §§ 1051(a), 1051(b), 1058(b). The USPTO relies upon the facts and averments in trademark submissions to determine the applicant's or registrant's right to initial or continued registration. See *Look Cycle Int'l v. Kunshan Qiyue Outdoor Sports Goods Co.*, Cancellation No. 92079409, 2024 TTAB LEXIS 289, at *39 (2024) (citing *Nationstar Mort. LLC v. Ahmad*, Opp. No. 91177036, 2014 TTAB LEXIS 350, at *4 (2014)); see also *Norton v. Curtiss*, 433 F.2d 779, 794 (CCPA 1970) ("With the seemingly ever-increasing number of applications before it, the [USPTO] . . . must rely on applicants for many of the facts upon which its decisions are based."). The public also relies upon the accuracy of these submissions in determining the relevant priority and scope of protection claimed.

All signed documents must comply with Rule 2.193 and therefore must be *personally* signed by the named signatory, including the personal entry of all electronic signatures.⁵ See 37 C.F.R. §§2.193(a), (c), 11.18(a); TMEP §611.01(b) (May 2025 ed.); see also *In re Stelcore Mgmt. Servs., LLC*, 2025 Commr. Pat. LEXIS 3, at *5-6 (Dir. USPTO 2025). A person may not delegate the authority to sign trademark-related submissions, and no party may sign the name of another. See *Zhang*, 2021 Commr. Pat. LEXIS 2, at *10; *Dermahose Inc.*, 2007 TTAB LEXIS 25, at *9-10; *Cowan*, 1990 Commr. Pat. LEXIS 24, at *5-6; see also TMEP §§611.01(b)-(c), 804.04. For example, a paralegal, legal assistant, or secretary may not sign or enter the name of an attorney or other authorized signatory. TMEP §611.01(b). A trademark submission that is signed by a person other than the named signatory, is improperly executed, and cannot be relied upon to support registration. See *Zhang*, 2021 Commr. Pat. LEXIS 2, at *10; *Ex parte Hipkins*, Appeal No. 90-2250, 1991 Pat. App. LEXIS 14, at *10-13 (BPAI 1991); *Cowan*, 1990 Commr. Pat. LEXIS 24, at *5-6. A signature that does not meet the “personally signed” or “personally entered” requirements, see 37 C.F.R. §§2.193(a), (f), 11.18(a), “may jeopardize the validity of [an] application or registration.” 37 C.F.R. §2.193(f). Thus, these signature requirements are not merely technical in nature but rather are substantive. *Stelcore*, 2025 Commr. Pat. 3, at *5.

All submissions to the USPTO in trademark matters are governed by the USPTO Rules. See, *generally*, 37 C.F.R. Parts 2, 11. Under these rules, only attorneys admitted to practice before the bar of the highest court of a U.S. state or jurisdiction may practice before the USPTO in trademark matters on behalf of others. 37 C.F.R. §§ 2.1, 2.17(a), 11.1, 11.14(a); see also 5 U.S.C. § 500(b).

Any individuals who are not U.S.-licensed attorneys⁶ are not authorized to practice before the Office and may not (1) give advice to an applicant or registrant in contemplation of filing a U.S. trademark application or trademark-related document; (2) prepare or prosecute any U.S. trademark application, response, or post-registration maintenance document; (3) sign amendments to applications, responses to Office actions, petitions to the Director, or request to change correspondence information; or (4) authorize any other amendments to an application or registration. 37 C.F.R. §§ 11.5(b), 11.14(b).

Finally, an applicant or registrant is also required to provide and maintain a valid email address where the applicant or registrant can receive correspondence. See 37 C.F.R §§ 2.23(b), 2.32(a)(2). The email address is crucial to the proper administration of the trademark registration process because the USPTO uses the identified owner email for

⁵ In the relevant time period, the trademark electronic system forms allowed for two ways to sign a document electronically: 1) the signatory directly enters the signature in the signature field on the electronic form (“Direct Signature”), 2) the signatory receives an emailed link to the form, which allows them to enter their electronic signature in the signature field (“ESIGN-ON”). The trademark electronic system forms now also allow for electronic signatures entered using document-signing software, however, this method was not used in any of the submissions referenced in this order. See TMEP §611.01(c)(ii).

⁶ A limited exception, not applicable here, exists for certain Canadian attorneys and agents who have been reciprocally recognized by the Director of the Office of Enrollment and Discipline.

correspondence when a party is not represented by a U.S.-licensed attorney. See TMEP § 803.05(b). When an email address is provided that is not in fact the email address of the actual mark owner, an unauthorized party may receive correspondence from the USPTO.

III. USPTO.gov Terms of Use

In order to access and file electronic forms and submit trademark documents to the USPTO, trademark applicants and registrants or their attorneys must register for and use a USPTO.gov account. Use of a USPTO.gov account and any other USPTO website or system requires users to agree to and comply with the Terms of Use for USPTO Websites (“Terms of Use”). See <https://www.uspto.gov/terms-use-uspto-websites>.

An individual who is not authorized to practice before the Office on behalf of others (or is not attorney support staff directly assisting an attorney), may make submissions through a USPTO.gov account in application or registration records *only* on his or her own behalf as the individual trademark owner or on behalf of a juristic entity owner of which he or she is a partner, member, officer, or direct employee.

Under the Terms of Use, registration for and use of a USPTO.gov account is limited to the individual to whom the account is registered, and the registered individual is responsible for all activities occurring under that account and any sponsored accounts. Sharing USPTO.gov accounts thus violates the Terms of Use.

Other violations of the Terms of Use include use of a USPTO.gov account to submit, access, or alter information exceeding one’s authority, which also violates 37 C.F.R. §§ 2.193(f) and 11.18(b). The USPTO can consider submissions filed in violation of the Terms of Use in connection with a trademark proceeding as a document submitted for an improper purpose in violation of Rule 11.18(b), and may strike, or otherwise not consider or give any weight to, such correspondence in accordance with the relevant USPTO rules. See 87 Fed. Reg. 432 (Jan. 5, 2022).

Furthermore, violations of the Terms of Use may result in immediate termination, suspension, and/or revocation of all related USPTO.gov accounts, particularly when the accounts are used to make submissions that are unauthorized under the regulations of the USPTO.

IV. Respondents’ USPTO Rule Violations and USPTO.gov Terms of Use Violations

A. Respondents are responsible for improperly entering signatures of others and providing false or fictitious information in trademark submissions.

The evidence establishes that Respondents repeatedly provided false or fictitious information in connection with trademark matters, for the purpose of furthering their

unauthorized practice of law and to circumvent USPTO Rules. Specifically, Mr. Wan, Mr. Luo, and Mr. Zhu each identify Respondents as being responsible for entering their names and signatures in trademark submissions.

The Wan OED Order states that Mr. Wan “granted [Huanyee] permission to list his name and bar information in the attorney section of applications that Huanyee filed, knowing that he would not review the applications prior to filing. [Mr. Wan] did not have control over the filing of these applications and, accordingly, did not know whether the trademark applicants signed the attendant application declarations when the applications were filed. He typically became aware of an application filed by Huanyee only upon the issuance of an Office action.” 2022 USPTO OED LEXIS 158, *11.

On March 23, 2022, Mr. Wan provided a declaration to the USPTO that identified 4,917⁷ trademark application serial numbers in which Respondents “prepared the application after consulting with the trademark applicant, listed [his] name and U.S. attorney license information on the application, and filed the application without [him] or any other U.S.-licensed attorney reviewing the application prior to filing.” Exhibit B (March 23, 2022 Declaration of Yi Wan).

Through Mr. Wan’s admission and available filing data, the USPTO concludes that Respondents electronically signed submissions using the “direct signature method,” entering the Mr. Wan’s name as well as the names of hundreds of different individuals or entities related to the listed owners.⁸ Further, these submissions originated from the same small number of computer networks despite the geographic diversity of the listed mark owners’ addresses of record and were filed at a rapid pace such that it is clear that the submissions were not personally signed by the named signatories. See *generally* Exhibit C (representational filing data).

Although Mr. Wan attempted to backtrack in a July 11, 2022 email to the USPTO, he declared *under the penalty of perjury* in his March 23, 2022 affidavit that he played no role in actually filing or preparing any of these applications, as corroborated by USPTO filing data. See Exhibit D. There is no ambiguity in his declaration, and it bears emphasis that his “consent [was] freely and voluntarily rendered in the making of [his] declaration.”⁹ Based on his 2022 affidavit, there is no information or basis upon which he could have

⁷ The declaration purports to identify 4,962 trademark applications; however, after removing duplicates there were 4,917 applications identified in Mr. Wan’s declaration.

⁸ The “direct signature method” refers to when an electronic trademark submission is signed directly within the trademark electronic filing system form and has not been sent to a third party for signature.

⁹ From Mr. Wan’s affidavit: “Attached Exhibit B is a list of 4,962 trademark applications filed with the USPTO for which Shenzhen Huanyee Intellectual Property Co., Ltd. (a non-U.S.-licensed attorney trademark company located in China with which I had a business relationship) prepared the application after consulting with the trademark applicant, listed my name and U.S. attorney license information on the application, and filed the application without me or any other U.S.-licensed attorney reviewing the application prior to filing.”

signed these application declarations, having only learned of them after the submission of the applications and subsequent issuance of Office actions.

Another attorney discipline matter, the Luo OED Order, identified Respondents as having prepared trademark submissions, thereby engaging in the unauthorized practice of law. 2024 USPTO OED LEXIS 29, at *14-15. Further, the Luo OED Order states that between April 2020 and December 2021, the attorney “presented trademark applications to the Office that were not signed by the named signatory as required by the trademark signatures rules. These trademark applications included declarations purportedly signed by the named signatories (i.e., the applicants or the applicants’ representative). Mr. Luo, himself, impermissibly signed trademark applications with the applicants’ signatures.” *Id.*, at *15. Further, USPTO filing data reveals Mr. Luo’s involvement in the prosecution of scores of applications Respondents previously filed using Mr. Wan and/or Mr. Zhu’s signatures and credentials.

Similarly, the Zhu OED Order again describes Respondents’ misuse of bar credentials and improper entry of applicants’ signatures on thousands of documents. For instance, the Zhu OED Order stipulates that Respondents “engaged in a pattern and practice of entering [Mr. Zhu’s] signature on trademark documents filed with the USPTO on behalf of foreign-domiciled trademark applicants.” Mr. Zhu further “admitted [Respondents] had entered his signature on trademark documents (including declarations) filed with the USPTO.”¹⁰ 2025 USPTO OED LEXIS 19, at *7. These admissions not only confirm Respondents’ involvement in directly prosecuting applications before the USPTO, they also underscore Respondents’ repeated and willful misrepresentations to the Office for the purpose of circumventing USPTO Rules.

B. Respondents repeatedly violated the Terms of Use when they accessed USPTO systems to prosecute trademark proceedings.

Respondents’ activity described herein was connected to 3 USPTO.gov accounts as follows:

[REDACTED]@qq.com
[REDACTED]@hotmail.com
[REDACTED]@tbchadwick.com

Using these accounts, USPTO filing records reveal that Respondents collectively submitted more than 19,000 trademark submissions in the names of hundreds of different owners with geographically diverse addresses, and that the applications and associated declarations in the applications were not personally signed by the individuals or attorneys named. See *also Zhang*, 2021 Commr. Pat. LEXIS 2 at *13. Based on available filing data, the USPTO concludes that Respondents electronically signed submissions using

¹⁰ Further, the Zhu Order states that Mr. Zhu “either disregarded or failed to review filing receipts sent to his email correspondence address, which filing receipts, if reviewed, would have disclosed that trademark documents filed with the USPTO were improperly signed.” 2025 USPTO OED LEXIS 19, at *18.

the “direct signature method,” entering the names of hundreds of different individuals or entities related to the listed owners. Further, these submissions originated from the same small number of computer networks despite the geographic diversity of the listed mark owners’ and attorneys’ addresses of record.

For example, between March 2020 to May 2021 a single USPTO.gov account registered to a Respondent, [Yusha Zhang]¹¹, filed over 4,900 trademark submissions, including filings in application proceedings and post-registration proceedings entering Mr. Wan’s name and bar credentials as the attorney of record and signing his name. This account also engaged in rapid filing, submitting over 2,300 applications, responses to Office actions, and Statements of Use were filed in rapid succession, with intervals of 3 minutes or less between submissions. Exhibit C (showing representational filing data). Moreover, each submission was allegedly directly signed by the named applicant, despite originating from the same computer networks as other submissions.¹²

Similarly, on October 14, 2020, the same account, filed nearly 225 new applications, with 169 of these submissions spaced 3 minutes or less apart and all bearing direct signatures of hundreds of different people. Exhibit C (again showing representational filing data). On December 31, 2020, the same account filed 241 applications with 179 of those submissions spaced five minutes or less apart while bearing the direct signatures of hundreds of different people. *Id.* The next day, on January 1, 2021, Respondents used this same account to file 265 application submissions, with at least 178 of those being spaced five minutes or less apart and yet again bearing the direct signatures of hundreds of different people. *Id.*

Further, as discussed in the 2021 Order for Sanctions, Respondents registered and shared access to at least three USPTO.gov accounts using the name of one of Respondents in connection with the use of Mr. Zhu’s name, bar credentials, and signature.¹³ *Zhang*, 2021 Commr. Pat. LEXIS 2 at *11-13.

Based on the high volume of filings submitted by these accounts across thousands of trademark matters, the USPTO concludes that these accounts were also shared by multiple individuals. Moreover, none of the names associated with the USPTO.gov accounts are U.S.-licensed attorneys. Thus, under USPTO Rules, the account users could not sign or submit trademark documents on behalf of anyone other than the named

¹¹ Respondents in their July 6, 2021 communication appear to acknowledge Ms. Zhang’s relationship to the Respondents’ filing activities.

¹² Moreover, this account filed submissions in all of the 4,917 applications identified in Exhibit B to the Wan Declaration. These submissions connect back to a single USPTO.gov account which entered Mr. Wan’s name and credentials and directly entered signatures of individual applicants and Mr. Wan on trademark related submissions.

¹³ The conduct described here occurred prior to the implementation of identity verification measures, which were made effective as of August 6, 2022.

USPTO.gov account holders, who are not applicants in any USPTO records. 37 C.F.R. § 11.5(b)(3).

C. Respondents engaged in the unauthorized practice of law.

The representations in Mr. Wan's, Mr. Luo's, and Mr. Zhu's OED settlement agreements underscore the breadth of Respondents' unauthorized practice of law before the USPTO. Respondents are not U.S.-licensed attorneys and they were not authorized to make submissions on behalf of others in trademark matters. Yet, USPTO records reflect that Respondents filed thousands of trademark submissions, including filings in application proceedings and post-registration proceedings. In furtherance of their unauthorized practice of law, Respondents repeatedly violated USPTO signature rules.

In addition, the evidence attached to this order and the previous 2021 Show Cause Order and Order for Sanctions further shows that Respondents provided counsel in contemplation of filing a trademark application, prepared trademark applications, authorized amendments, corresponded with the USPTO, and engaged in the representation of applicants and registrants before the USPTO in thousands of trademark matters. See *Zhang*, 2021 Commr. Pat. LEXIS 2 at *6; Exhibit B (March 23, 2022 Declaration of Yi Wan, describing how Respondents used his name and credentials to directly prepare and submit application related materials to the USPTO).

The evidence discussed above collectively shows that Respondents knowingly engaged in improper conduct when filing these applications. Moreover, the evidence shows that they devised tactics to conceal their involvement and advance submissions for an improper purpose, including to disguise that Respondents were representing trademark applicants before the Office. In Respondents' efforts to conceal their identities, they entered false signature information, information which is material to the Office's determination to issue a registration. Furthermore, Respondents' conduct demonstrates a pattern of making false material representations of fact in connection with application proceedings with an intent to deceive the USPTO into believing that application requirements were satisfied. See *In re Bose Corp.*, 580 F.3d 1240, 1243, 91 USPQ2d 1938, 1939 (Fed. Cir. 2009) ("Fraud in procuring a trademark registration or renewal occurs when an applicant knowingly makes false, material representations of fact in connection with his application."). Such actions show an intentional effort to mislead the USPTO regarding Respondents' authority in these trademark proceedings, which supports a finding that such false material representations of fact were made knowingly, willfully, or at the very least, with reckless disregard. *Look Cycle*, 2024 TTAB LEXIS 289 at *34 (explaining that fraud can be demonstrated by knowing violations, or those undertaken with reckless disregard for the truth).

V. Show Cause Requirement

In determining appropriate sanctions, various considerations may be taken into account, including what is needed to deter the conduct by the party and by others and whether: the improper conduct was willful, the conduct was part of a pattern of activity or an isolated

event, the conduct infected an entire application or one particular submission, the party has engaged in similar conduct in other matters, the conduct was intended to injure, or the effect of the conduct on the administrative process in time and expense. 73 Fed. Reg. 47650, 47653 (Aug. 14, 2008).

Based on the foregoing, the USPTO has reason to find that the most serious sanctions are warranted. The evidence establishes that Respondents have knowingly engaged not only in the unauthorized practice of law but also in a widespread and coordinated pattern of activity intended to circumvent USPTO Rules and conceal their involvement in trademark matters by providing false information to the USPTO to deceive the USPTO into believing the applications and other submissions were proper. As discussed above, the evidence indicates that all initial application forms and other trademark submissions made through a USPTO.gov account registered to or used by Respondents were filed in violation of multiple USPTO Rules. These submissions contained fatal defects and false, fictitious, or fraudulent information, including forged signatures or false attorney information.

The available evidence and information support finding that all submissions were presented to the USPTO for an improper purpose in violation of 37 C.F.R. § 11.18(b)(2) and involved fraud on the USPTO. Respondents intended to deceive the USPTO into believing the submissions were proper and to examine them. Respondents' conduct impaired the USPTO's ability to perform its duty of registering marks that comply with U.S. trademark law, including USPTO Rules. Respondents' conduct has infected thousands of trademark matters, resulted in false and fraudulent submissions being made to the USPTO that in most if not all cases would render the applications void ab initio, and adversely affected the integrity of the federal trademark registration process. In addition, USPTO records indicate that these submissions were made using the USPTO systems in contravention of the Terms of Use.

Because the information discussed above supports a finding that Respondents' actions violate the USPTO Rules, Respondents are hereby ordered to show cause why the USPTO should not enter the following sanctions¹⁴:

- (1) Permanently preclude Respondents and any employee, agent, or anyone acting on behalf of Respondents from submitting trademark-related documents to the USPTO;
- (2) Strike or otherwise give no weight to all trademark-related documents submitted by Respondents or any employee or anyone acting on behalf of Respondents;

¹⁴ If a preliminary action taken by the USPTO in this matter is later determined to be have been done in error, such action may be undone.

- (3) Remove correspondence information associated with Respondents and any employee, agent, or anyone acting on behalf of Respondents from the USPTO's database in all applications and/or registrations;
- (4) Deactivate any USPTO.gov accounts in which contact information related to Respondents appears, and take action to prevent Respondents from creating or activating further accounts;
- (5) Block future financial transactions from credit cards used to pay filing fees associated with the improper submissions and/or associated with Respondents
- (6) Terminate all ongoing proceedings containing submissions filed by Respondents or any employee, agent, or anyone acting on behalf of Respondents; and
- (7) Continue to strike documents, remove information, deactivate accounts, and terminate proceedings containing submissions later found to have been filed by Respondents or any employee, agent, or anyone acting on behalf of Respondents.

VI. Proposal to Reconsider Registration Decisions

The USPTO, like all administrative agencies, possesses inherent authority to reconsider its decisions, subject to certain limitations. *Tokyo Kikai Seisakusho, Ltd. v. United States*, 529 F.3d 1352, 1360 (Fed. Cir. 2008) (collecting citations and affirming the Department of Commerce's inherent authority to reopen and reconsider a yearly administrative review of an antidumping order); see *The Last Best Beef, LLC v. Dudas*, 506 F. 3d 333, 340-341 (4th Cir. 2007) (holding that the USPTO acted within its inherent authority to correct its own unlawful action by canceling the issuance of two registrations); see also *In re Vivint, Inc.*, 14 F.4th 1342, 1351-52 (Fed. Cir. 2021). Courts have recognized that an "agency's power to reconsider is even more fundamental when, as here, it is exercised to protect the integrity of its own proceedings from fraud." *Tokyo Kikai*, 529 F.3d at 1361 (citing *Alberta Gas Chems., Ltd. v. Celanese Corp.*, 650 F.2d 9, 12 (2d Cir. 1981)); see also *Hekmati v. United States*, 51 F.4th 1066, 1070 (Fed. Cir. 2022). "The public welfare demands that the agencies of public justice be not so impotent that they must always be mute and helpless victims of deception and fraud." *Hazel-Atlas Glass Co. v. Hartford-Empire Co.*, 322 U.S. 238, 246 (1944). The USPTO's inherent authority to reconsider registration decisions that it later learns were made based on false representations and assumptions is distinct from the USPTO's authority to impose sanctions when submissions are made for improper purposes.

As explained above, the USPTO relies on the truth and accuracy of the submissions made to the USPTO to fulfill its mandate to register marks and maintain registrations that comply with U.S. trademark law. See *Norton*, 433 F.2d at 794; *Look Cycle*, 2024 TTAB LEXIS 289, at *37; *Stelcore*, 2025 Commr. Pat. LEXIS 3, at *5. The USPTO's reliance on the truth and accuracy of factual assertions in trademark submissions to make registration

decisions is necessary due to the limited resources of the agency and is justified because each application and maintenance document must be signed, and the included factual assertions verified, by a properly authorized signatory. See 37 C.F.R. §§2.33(a)-(b).

In this case, the available evidence and information indicates that the integrity of the USPTO's examination and decision-making processes were tainted at their core and the USPTO's registration decisions were premised on false representations and assumptions. The evidence indicates that the signatures of applicants and U.S.-licensed attorneys on trademark submissions in the involved registrations were forged, and the submissions were not reviewed by the signatories prior to filing. Additionally, the evidence indicates that Respondents purposefully concealed their involvement in trademark proceedings by providing false information to the USPTO to deceive the USPTO into believing the applications and other submissions were proper. Respondents' conduct, characterized by declarations and verifications with false signatures and misrepresentations regarding attorney representation, resulted in thousands of submissions containing averments that cannot be relied upon to support registration. *Stelcore*, 2025 Commr. Pat. LEXIS 3, at *5; *Zhang*, 2021 Commr. Pat. LEXIS 2 at *10; *Hipkins*, 1991 Pat. App. LEXIS 14, at *10-13; *Cowan*, 1990 Commr. Pat. LEXIS 24, at *5-6; see also TMEP 611.01(b). The USPTO thus has no confidence that the factual representations relied upon for its registration decisions were accurate.

As a result, the USPTO has reason to believe that its examination of all of the involved applications and registrations was conducted on false factual assumptions that resulted in wrongful registration decisions. Accordingly, the USPTO proposes to exercise its inherent authority to reconsider its registration decisions and reopen the relevant proceedings. The proposed approach protects both the integrity of the USPTO's registration proceedings and the public interest that the USPTO reach the right result and maintain an accurate federal trademark register including only those marks that met the statutory and regulatory requirements for federal registration. This interest outweighs any interest the mark owners may have in the finality of the USPTO's registrability determination.

If the USPTO exercises its inherent authority to reconsider its registration decisions, the decisions will be vacated and the application or post-registration proceedings reopened for a new determination to be made. For an initial registration decision, the registration will be cancelled and restored to pendency under its application serial number.¹⁵ The reopened proceeding may be subject to the termination sanction proposed in the preceding section for the reasons explained above.

How to Respond:

The USPTO will consider your response in determining the appropriate sanctions. If you object to the USPTO reconsidering its registration decisions as described above, or

¹⁵ During the period that a reopened application proceeding is pending, the USPTO's systems may continue to show the status as registered due to the agency's technical limitations.

imposing the sanctions proposed in the Show Cause Order, you must respond to this notice **by Thursday, February 26, 2026**. To be considered, responses must be submitted in writing using the procedures for Respondents and Owners described below.

Any response or electronic communications submitted to the USPTO will be considered part of the public record and are not exempt from disclosure.

Respondents: A response must be submitted via email to TMPolicy@uspto.gov.

Owners of applications identified in Exhibit A: If an applicant believes its application was included in error in this order, any response must include evidence and detailed explanations demonstrating that the particular application proceeding did not involve improper submissions as described above. An applicant's response must be submitted using the Petition to Director form available on the USPTO's website.

Owners of registrations identified in Exhibit A: If a registrant believes its registration was included in the notice proposing reopening in error, any response to the notice must include evidence and detailed explanations demonstrating that the particular underlying application or post-registration proceeding did not involve improper submissions as described above. A registrant's response must be submitted using the Petition to Director form available on the USPTO's website.

If the response is filed by a representative who is not the owner of the application or registration, the response must establish that you are authorized to take action on behalf of others under the USPTO Rules, and must include evidence corroborating any factual claims you make.

This order is issued without prejudice to the USPTO taking all appropriate actions to protect its systems and users from your continued improper activity, including issuing additional orders relating to other applications or registrations, or referring your conduct to relevant state and federal law enforcement agencies.

A separate notice concerning this order will be uploaded in each file identified in Exhibit A and will be sent to the correspondence email address of record in each file.

Show Cause Order - In re Shenzhen Huanyee Intellectual Property Co., et al.

So ordered,

Amy P. Cotton
Deputy Commissioner for
Trademark Examination Policy

On delegated authority by

John A. Squires
Under Secretary of Commerce for Intellectual Property and Director of the United States
Patent and Trademark Office

Exhibits: A – D

CERTIFICATE OF SERVICE

I certify that on January 27, 2026, the foregoing Show Cause Order was emailed to the Respondents at the following email addresses:

[REDACTED]@yahoo.ca
huanyee@huanyee.com
paralegal1@tbchadwick.com

Exhibit B

**BEFORE THE DIRECTOR OF THE
UNITED STATES PATENT AND TRADEMARK OFFICE**

I, Yi Wan, offer this declaration about my practice before the United States Patent and Trademark Office (“USPTO” or “Office”) in trademark practice since August 3, 2019.

1. I am over the age of twenty-one years, and I am competent to make this declaration.
2. My consent is freely and voluntarily rendered in the making of this declaration.
3. I am an attorney licensed to practice law by the State of New York.
4. I have practiced before the USPTO in trademark matters at least since August 3, 2019, the effective date of the USPTO’s requirement that a foreign-domiciled trademark applicant be represented before the Office by a U.S.-licensed attorney (i.e., the requirement commonly known as the “U.S. Counsel Rule”).
5. Attached Exhibit A is a list of 13,816 trademark applications filed with the USPTO where I am identified as the attorney of record on the application. For each application identified in Exhibit A, I or my non-attorney assistant entered the name of the person identified as the named signatory on the declaration set forth in the application filed with the USPTO.
6. Attached Exhibit B is a list of 4,962 trademark applications filed with the USPTO for which Shenzhen Huanyee Intellectual Property Co., Ltd. (a non-U.S.-licensed attorney trademark company located in China with which I had a business relationship) prepared the application after consulting with the trademark applicant, listed my name and U.S. attorney license information on the application, and filed the application without me or any other U.S.-licensed attorney reviewing the application prior to filing.
7. In accordance with 28 U.S.C. § 1746(b), I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Executed on March 23, 2022.

Subject: In re: Suspension of Applications and Cancellation of Marks

Follow Up Flag: Follow up
Flag Status: Completed

CAUTION: This email has originated from a source outside of USPTO. **PLEASE CONSIDER THE SOURCE** before responding, clicking on links, or opening attachments.

Dear Sirs/Madams,

I am a New York attorney currently suspended from practice before the USPTO pursuant to a settlement agreement entered with the Office of Enrollment and Discipline ("OED"). I am recently contacted by trademark applicants I have previously represented regarding their applications being suspended (for example, in *Serial No. 90816865*) and registration being cancelled (for example, in *Serial No. 90725499*). Although I may not be able to speak on their behalf. These suspensions and cancellations may have arisen from my misconduct in the past and I take full responsibility for this.

Firstly, I would like to clarify that the List of Cases Which May Contain Improper Signatures should not be the basis of mark cancellation, even if it was later materialized into an affidavit for settlement purposes. During the interview with OED, I have informed the Office that I am unable to pinpoint exactly which application contains an improper signature and which one does not due to technical limitations. **I humbly request the Office grants the applicants the benefit of the doubt and at least afford the applicants a chance to confirm whether their signatures were entered improperly.**

Secondly, I should be blamed and penalized for any improper signatures I have entered on the applicant's behalf. **I previously have requested the OED to penalize me instead of the applicants prior to the settlement. I would like to respectfully make the same request before TMPolicy**, even if it means to impose additional sanctions through OED or by a complaint to the Bar instead of penalizing the applicants who should not be penalized for my misconduct.

Since the inquiry began in May last year, I have had a great deal of stress leading to many sleepless nights (among other health issues) grieving over the mistakes I have made in the past. Nonetheless, I have stepped up to accept my responsibilities before the Office and New York's Attorney Grievance Committee. **All I am asking the Office for is a chance to allow me to take the blame if these suspensions/cancellations are attributed to my wrongdoing.**

Sincerely,
Yi Wan
